

# How to link your new PACE Plan to P2P

**If you have a new plan that was created in PACE, we may need to ask you to contact the NDIA to link (endorse) P2P as your plan manager before we can start claiming.**

**If you need to do this, the easiest way is to call the NDIA on 1800 800 110 and use this example speech.**

Hello,

My name is <\_\_\_\_\_> and I am a <participant/nominee>. My NDIS number is <\_\_\_\_\_>.

I have a new plan that was created in PACE and I need to endorse my plan manager.

Could you please endorse Parent to Parent Qld (Registration number 4050006202) as my plan manager.

I want to endorse Parent to Parent from the start of my new NDIS plan which started on \_\_\_\_\_.

Could you please confirm that this has been completed and my plan manager will be able to begin services straight away?

Thank you
